• Support efforts to expand private and public revenue sources dedicated to transportation options and to repair our roads, expand transit services, and provide more safe routes for pedestrians.

• Support and provide input to the comprehensive study of transportation options and needs through the Premium Transit Study.

• Support the construction of the Tampa Hillsborough Expressway Authority’s (THEA) Selmon Extension project, a planned 1.6-mile elevated toll road above Gandy Boulevard that will provide regional connectivity between Hillsborough and Pinellas Counties.

• Support the Tampa Bay Express project, while encouraging FDOT, neighborhood leaders, local governments, and the business community to work together to address the impact on the affected neighborhood.

TOP PRIORITIES

• Support the University of South Florida’s funding for the USF Health Downtown Medical School.

• Support Moffitt Cancer Center’s request for an increase in their share of the cigarette tax revenue by at least $8 million dollars annually to fund a research tower and renovations and expansion of clinical facilities.

• Support a statewide uniform framework on regulation of transportation network companies that protects the consumer, while providing competitive and innovative choices.

• Support changes to the workers compensation system that protects Florida’s businesses without jeopardizing access to care for worker’s comp beneficiaries.

• Support greater access and funding to continue to provide quality K-12 education for Hillsborough County including technical and workforce training programs.

• Support Hillsborough Community College request of $23 million to fund construction of their Dale Mabry Allied Health Building.

• Support legislation abolishing the Hillsborough County Public Transportation Commission and transferring all assets and liabilities of the PTC to Hillsborough County Board of County Commissioners.

CONTINUED ON BACK...
• Support incentives that create high-skill, high-wage jobs and/or make significant capital investments in our state. The tools used to encourage job growth and capital investment should be linked to return-on-investment criteria and accountability measures for recipients.

• Support mandatory personal injury protection for auto insurance either through the current PIP program or through a mandatory Medical Payments policy.

• Support phased initiatives to reduce the tax burden on commercial real estate transactions.

• Support state funding for transportation improvements in the Tampa Bay region including the Tampa Bay Express project.
