Greater Tampa Chamber of Commerce Issues a Statement on Transportation Investment in Hillsborough County

TAMPA, Fla. – Yesterday, the Board of Directors of the Greater Tampa Chamber of Commerce approved the following statement addressing transportation investment in Hillsborough County:

The Greater Tampa Chamber of Commerce, the leading voice of the business community, believes that transportation investment in the community requires additional funding sources to solve our transportation challenges that are consistent with the Chamber’s Transportation Guiding Principles. The Chamber supports the right of citizens to vote on issues of taxation, including a referendum. The Chamber will support a referendum that includes measureable transportation outcomes, including mobility options and additional funding resources.

The Chamber has worked diligently through our committee process to engage the business community by identifying their transportation concerns and educating our members on those issues. The Chamber is committed to continuing our leadership role in promoting the development and funding of cost-effective regional transportation systems that will support economic development and improve the quality of life for residents. We look forward to continuing our role in this process to identify solutions for the transportation needs in Hillsborough County including the current discussion about Go Hillsborough.
